

## 2020 RRCSA Student Association Board Election Positioning Statement

Brad Gebhardt

As a hopeful returning board member for the 2020/21 school year, I would be honoured to pick up where I left off working hand in hand with an incredible team. As a member of the RRCSA board last year, I represented Skilled Trades and Technologies as a business admin student because I have the unique position that I am in fact a red seal journeyman bricklayer in addition a marketing major in the business administration program. I take great pride in representing the students in both faculties as I was able to be an integral member of multiple committees.

As a member this year, I look to advocate for my fellow students as we create the best possible student experience in these trying times in the wake of Covid-19. This will be a tall task and that is one of my main reasons for wanting to be a returning RRCSA board member. I believe the board will benefit from a veteran presence as we move forward with our 2020/21 action plan. Continuing to work hard and contribute to the everyday student like for RRC students is utmost importance to me and any positive impact I can make is my mission this year.

Having been a board member last year, I was able to begin a working relationship with all the current board executives as we sat on many of the same committees. The current execs are top notch individuals who together, form an incredible team. I want to be a part of that team and consistently contribute to its operations to ultimately provide the best possible experience for all RRC students.

I want to be a member for the RRCSA board again this year because I love working for the students of this college. I want to see them be successful and feel taken care of by the SA through every step of their academic journey at RRC.

I want to work to make your student experience better.

Let's get to work.
