

Hello, my name is Inderjeet Singh Grewal and I'm a junior. I'm not the type of student who will lead a Senior prank with you, but that probably isn't what you want in a board member anyway. What I do offer is steadfastness, hard work and the ability to work with others even during difficult circumstances while still keeping a sense of humor.

### **My Credentials**

**I am** from India and I have done engineering in Mechanical engineering, and in these three years of study, me and my team in the college organized a lot of events, from cricket tournaments to cultural stage shows and quiz competitions. Except from that, I started an N.G.O. with my college mates name Dasvandh Group in the year 2017, and from that year, we provided clothes to over one thousand needy people, sponsored over 21 students who left their studies because of financial issues, planted over 250 trees, provided free home made wheat grass juice to people in need. Else than that, me and my team help the people in floods occurred in 2019 in India and the state of Punjab. We provided food to over 800 people at that time and as the pandemic came, we volunteered for providing groceries to the elderly people.

### **What I'll Do for You**

Its been a month I came here and started counselling services to the students in three languages English, Punjabi and Hindi, which I will try my best to implement in RRC. In these services, me and my college team will try to provide information about scholarship programs, students mental well being services on a regular basis which the college is already doing but we will try to reach the students by ourselves in a more convenient way (whatsapp groups, facebook groups, instagram, youtube).

Else than that, we will provide help in finding part time jobs to the on campus students (Domestic and International) and will assist the students to find the accommodation. From groceries to winter clothing to traveling guidance, we will create an online platform for the students where they can drop their inquiries and they will be answered in 24 hours with the best possible ways and alternates for them.

As your Students' Association Board member, I vow to end all homework. Just kidding. I can't do that, but what I can do is be your voice with the college administration with other board members and work to make this the best year RRC has ever had. I will introduce ideas for events, we'll work together to help the community through volunteer work and showing them just how dedicated the students at RRC are.

### **Ask for the Vote**

I would appreciate your vote for Students' Association Board member. If elected, I will continue to fight for the things that are important to students, no matter how big or small they might be. Let's work together to make our stamp on this community and on the world.
