

## **Positioning Statement**

Hi there, my name is Ramanveer Singh Ashan. I am from Punjab, India. It was last year's September when I first came to Canada. So, it's been a while since I am here, and at first, it seemed hard to study in a different environment, but my problem-solving skills and positive attitude helped me a lot to succeed in any task. I have done my secondary school diploma in the medal stream. I just completed an Intensive English Program. Now, I am pursuing the Pharmaceutical and Food Manufacturing program at Red River College. This is my first time in a college, and I want to make it an enjoyable and unforgettable experience.

I am running in this fall elections to become a Students' Association Board Member. The reason why I am running for this position is I like helping people. This position will allow me to provide support and assistance to students and make them feel comfortable in a hard time. I have strong communication skills, and I am an extrovert person. I want to play an active role in our Students' Association's ongoing improvement, and I am willing to give my best outcome to assist and support the association. I would also make sure that the problems I had faced when I first came here should not happen to other students.

I see a board member's position as a perfect way to be a part of a team involved in the current student's lives and planning big to provide a better future and learning experience for students. When I was doing my schooling, working alongside the Student Council Manager, I learned first-hand experience in what it means to be a part of a team. As a member of the Students' Association Board, I will endeavour to improve student services and other facilities to assist students. I am a down to earth person; I believe good service is what keeps students happy and support the Students' Association. If elected, I will make it my goal to participate actively in any discussion and activity to improve student services. I believe it is vital to empower the student body with a voice that would stand up to assist any student. I hope to make an approachable representative body, and I firmly consider myself the right person for this position.

Thanks for reading; I would appreciate your vote for Raman Ashan to serve on the Students' Association Board.
