

POSITION STATEMENT

My name is Komaljeet Sandhu and I am a student in the Administrative Assistant program. I am from India. I have been in Canada for more than 2 years. Academically, I am interested in reading books. My hobbies include shopping, exploring different places, and listening to music. I also work part-time as a receptionist.

Many reasons have shaped my decision to run for elections to the Student Association Board. Initially, I faced so many difficulties after arriving in Canada. It is not easy to adapt to the new country. We have many international students studying at the college, their voice will be raised as I am also an international student and I know it is not easy to survive independently. So, I dedicate myself to providing help to students, especially international students, so that they will not face any kind of difficulties here. As we all know that Red River College is one of the best colleges which provide lots of facilities to the students but there are lots of students who do not know about these facilities and how to use them. So, I will try my best to make them aware of all the facilities that are useful to them.

Since I came here, I have always wanted to represent the students' voices. I will bring forward the students' issues and try my best to resolve them. I will listen to their concerns attentively and make sure that they will be sorted out soon. Also, it is a great opportunity for me to work with different students and gain experience in a professional board setting. To create a stronger community at RRC, I will work harder to bring more events and clubs to the campus which will bring students of diverse backgrounds together.

I nominate myself for board elections because I have good communication skills and I can work under pressure and in a team. Also, I am a punctual and responsible student and confident about my work. Back home I was the head girl at the school so, I know better how to handle the responsibilities properly. I will be glad to handle all the tasks as a member of the Student Association. I will work honestly and do my best to cooperate with others. An opportunity to serve as a member of the Student Association is an exciting challenge for me to expand my leadership abilities

It is my goal to use my leadership and communication skills to represent myself as a member of the Student Association. In the 21st century, I want all the students to feel safe and welcomed at RRC regardless of their nationality, gender, class, or religion. I will make sure that all the students get equal

rights. I will serve the board with my utmost priority and give full time to concerns and issues of the students.
