

Sarpreet Kaur Sidhu positioning statement-

I have always demonstrated leadership qualities since my high school. I was in class 7 when I was part of the organization of events in school. I used to volunteer to conduct and manage events. All the teachers and staff in my school were satisfied with my performance and the capability to complete everything in time.

I was in sports as well, which indulges the work of a leader at some points. I have been at several competitions not just in my home country but also in different countries. It is important to look after the group and my juniors as well. I managed every important documents of the team. My coach held me responsible for looking after my juniors, bringing them for competition on time and preparing them for it. when we are away from our families and no other elder is along with us, there are situations where we have to make difficult decisions. I remember once, that in a competition, I was about to leave the place we stayed for the arena but a junior of mine got injured somehow. There was no elder with me neither my coach so I gathered my team mates and told them that I will stay back and give her first aid and let the coach know and they all can go ahead for the competition and give their best.

If I am chosen in the SAB, I will give my level best to it. I will work for the betterment of students and represent SA where it is required. It will be my prime duty to help out students and guide them with anything that SA can help them with. I am an international student myself and I know the importance of getting guidance in situations where I am in problem. I myself was in a situation where SA helped me to overcome it. this is what encouraged me to be the part of the organization and help other fellow students like me in difficult times and whenever they need.

My program is all related to community service and being a part of SAB will help me showcase my skills and capabilities towards the people around me. Due to COVID-19, all the students are having online sessions and they have not been able to have an experience of college. This might have brought up a lot of questions for them which I will try my best to answer. Being a member of board will enable us to make decisions with respect to students, so that we can give them the best experience for their college period. I will try and work with complete honesty and dedication for SA.
